Hello Industry Professionals

My name is Gene Newman and I have been a professional bail agent for more than 35 years. Recently, one of the leading skip tracers, Alex Price, whom we've all known and done business with for years set out to create a program to guide us thru these changing times.

The National Skip Tracers Certification Course is hands down the best training program for skip-tracing in the bail industry. It explains the new legal terrain and teaches how to "skip-trace" our fugitives now using technology from the future. Alex's new program is nothing short of brilliant and warrants your attention. All industry professional bail agents need to add this course to your company's continued education. All true professionals should continue to seek to better our service by keeping abreast of the state of our changing industry.

The National Skip Tracers Certification Course is a must have for all who are serious about your and our industry's future.

Respectfully,

Gene Newman
